What about free versus paid? If you only need to manage your own simple to-do lists and keep a few notes, a free to-do list app, such as the Mac's homegrown Reminders app or Google's Keep app, could be up to the task.. Can you share tasks and to-do lists with others? A checklist app is a replacement for a project-management software such as Microsoft Project, but if you are part of a team that just needs to track tasks, share documents, write notes, and assign to-do items, a task app, such as Remember The Milk or Todoist, comes with collaborative tools for managing team projects and could be a perfect fit for your team.. What to look for in a to-do list app? The most useful apps can track to-do lists, help you complete tasks on time, remind you of events, keep you organized, and allow you to work on tasks with coworkers.

Can you sync tasks across platforms? If you check your tasks on a Mac and iPhone, look for a to-do list app that syncs across all your devices.. Most of our picks have iPhone and Android versions, and if you get stuck, you can usually manage your tasks via a website.. Annual subscriptions start at around \$25 Can you manage your to-do list online?Nearly all of our picks let you manage your tasks and lists via a Web browser -- or a browser extension -- on a Mac.
